EXPERIENCE

BIM Modeler (Trainee)

BIMLabs Global

 September 2024 – Ongoing  Kozikode, Kerala

- Created detailed 3D architectural models using Revit, ensuring compliance with project specifications and BIM standards
- Assisted in clash detection and coordination using Navisworks
- Developed custom Revit families with parametric controls, ensuring flexibility and adaptability in design changes
- Implemented nested and adaptive families for complex architectural elements
- Generated construction drawings, floor plans, elevations, and sections from BIM models for project documentation

Site Engineer (intern)

ULCCS

 May-4 to may-11  Kozikode, Kerala

- Visited various work sites to review and verify construction drawings.

PROJECTS

Existing House Plan Documentation

 March-2025

- Measured and analyzed the existing structure to create an accurate floor plan.
- Developed a detailed 2D AutoCAD drawing
- Collaborated with homeowners/engineers to align the plan with current standards.

Cafe Planning & Design

 December-2024

- Developed a detailed 2D plan for a café using AutoCAD.
- Incorporated functional space planning and seating arrangement
- Coordinated with architects/engineers/clients to finalize the layout.
- The project is currently under construction, aligning with the proposed design.

Planning, Analysis & Design of Smart Krishibhavan

 April-2024

- The project includes planning, analysis of loads, and designing of structural elements based on the loads acting on them.
- The analysis is carried out using ETABS.
- The project encompasses a series of interconnected stages such as site evaluation, planning, analysis, design, 3D visualization, and documentation.
- Drawing and detailing are done using AutoCAD.

EDUCATION

B.Tech in Civil Engineering

APJ Abdul Kalam Technological University

 2020-2024

SKILLS

- AutoCAD
- Revit
- Enscape
- Recap Pro
- Navisworks
- BIM 360
- Planning
- Time Management
- Team Collaboration
- Adaptability
- Self-Learning
- Attention to Detail
- Creative Problem-Solving
